EU-Africa: Global Gateway Investment Package

#GlobalGateway #AfricaEU #TeamEurope

FEBRUARY 2022

The Global Gateway Africa – Europe Investment Package aims to support Africa for a strong, inclusive, green and digital recovery and transformation by:

- Accelerating the green transition;
- Accelerating the digital transition;
- Accelerating sustainable growth and decent job creation;
- Strengthening health systems;
- Improving education and training.

The Global Gateway Africa-Europe Investment Package will be delivered through Team Europe initiatives: the EU, its Member States and European financial institutions will work together to support **concrete and transformational projects** jointly identified in priority areas.

**€150
billion
in investments**

Accelerating the green transition

Climate change is a global challenge and can only be tackled working together at a global scale. The EU works with Africa to maximise the benefits of a job-rich green transition and minimise threats to the environment in full compliance with the Paris Agreement.

Sustainable energy

The Investment Package will allow to increase renewable energy and hydrogen and share in the energy mix, access to affordable, reliable and sustainable energy as well as support market integration and sector reforms.

Ambition by 2030: Increase the renewable energy generation capacity by at least an additional 300 GW

In focus: Clean Hydrogen production in Africa

Across the African continent, massive deployment of renewable energy and clean hydrogen production, contributing to the aspiration to have at least 40 Gigawatts of electrolyser capacity by 2030 and help develop the renewable hydrogen sector by unlocking business opportunities in both the supply and demand side for energy intensive industries

Biodiversity

Initiatives undertaken under the Investment Package will promote sustainable use of natural resources and biodiversity protection and nature based solutions as the basis of a green recovery, including support to the protection of landscapes and ecosystems.

Ambition by 2030: Improve the livelihood of 65 million people, capturing carbon, stabilising 3 million km² of land and ensuring water security.

Agri-food systems

The Investment Package will support more sustainable African agri-food systems more by creating a conducive and transparent policy environment for sustainable private investments, enhancing investments in support to agri-food and fish-processing, facilitating innovation and boosting improved nutrition.

Ambition by 2030: accelerate the sustainable transformation of African food systems, in support of Africa's agriculture, fisheries and food development agenda.

Climate resilience and disaster risk reduction

Africa is particularly vulnerable to extreme impacts of climate change, which threatens to undo decades of economic progress and development. The Investment Package will contribute to building resilience by supporting in disaster risk reduction and climate change adaptation, enhancing disaster preparedness for effective response and in recovery, rehabilitation and reconstruction and strengthening governance to manage disaster risk.

Ambition by 2030: Enhance capacity of partner countries to adapt to climate change and substantially reduce disaster risk.

Accelerating the digital transition

Tackling the global digital divide at all levels and strengthening secure digital connections between Europe and Africa, but also across Africa, is a common priority. In the post-COVID-19 world, strong digital connections have become even more essential. The Investment Package will facilitate projects in submarine and terrestrial fibre-optic cables, as well as cloud and data infrastructures and support regulatory frameworks promoting a digital transition that puts people at the centre and the principles of trusted connectivity, such as data protection.

Ambition by 2030: to accelerate universal access for all in Africa to reliable internet networks safely and securely wherever they live.

In focus: AU-EU Digital4Development Hub

The African Union – European Union Digital4Development Hub is a multi-donor action to help operationalise digital cooperation by:

- Providing technical assistance to national and regional institutions that request analysis and expertise to develop digital transformation plans and support the implementation of digital projects
- Facilitating capacity building and exchanges of knowledge among African and European actors
- Organising dialogues and consultations to promote collaboration between governments, civil society, private sector, and academia in Europe and Africa.

Team Europe
foreseen

Accelerating sustainable growth and decent job creation

The Investment Package will allow to substantially increase investments to boost regional and continental economic integration, growth and decent job creation.

Transport

The Investment Package will facilitate mobility and trade within Africa and between Africa and Europe through strategic corridors, by developing multi-country transport infrastructure, supporting investment in sustainable, efficient, and safe connectivity between both continents and updating and harmonising **regulatory frameworks**.

Ambition by 2030: Integrate the African and European multimodal transport networks in line with the regional and continental frameworks and tailor these networks to the economic potential of an African Continental Free Trade Area.

Support to businesses

The Investment Package will support early stage businesses and young entrepreneurs - especially women - in Africa to launch, consolidate and grow sustainable, strong and inclusive businesses and create decent jobs, by offering financial and technical support at the early stages of their development.

Ambition by 2030: Increase the private sector's contribution to Africa's growth and economic transformation.

Economic integration

The EU is a longstanding partner of Africa's economic integration process. It will strengthen Africa's regional and continental economic integration towards the Africa Single Market, including supporting the African vision of the AfCFTA as a single continental trade and investment system that is stable, solid and based on clear regulatory frameworks. The package will also support the developing and strengthening of competitive, sustainable regional and continental value chains.

Ambition by 2030: Strengthen economic continental and regional integration and accelerate Africa's industrial development.

Inclusive economies - North Africa region

Through the Economic and Investment plan for the Southern Neighbourhood, the EU will seek to promote sustainable trade and investment into higher value-added sectors and support vocational training to seize the new opportunities offered by the twin transitions green and digital. The initiative will also support entrepreneurship for young and women entrepreneurs, particularly in future-oriented areas.

Ambition by 2030: Increase the private sector's contribution to Africa's growth and economic transformation.

Sustainable mineral raw materials value chains

The EU will support partner countries in extracting and adding value locally to their mineral raw materials.

Ambition by 2030: Enable African countries to extract and add value locally to their raw materials resources and integrate into sustainable global value chains.

Africa-EU Science, Technology and Innovation Initiative

The EU is committed to step up cooperation with partner countries to improve capacities in science, technology and innovation, upgrade research and innovation facilities, strengthen innovation ecosystems, and increase research collaboration.

The Investment Package will support the use of new technologies and knowledge transfers in Africa by leveraging EU Space Programmes and applications.

Ambition by 2030: Acceleration of Africa's transition to an innovation-led, scientific knowledge-based economy value chains.

Strengthening health and pharmaceutical systems

Resilient health systems and successful vaccination campaigns are key to mitigating the effects of COVID-19 on public health and providing better health care in the future. Team Europe is supporting Africa's efforts in vaccine deployment, infrastructure and production capacities, skills development, regulatory frameworks and universal health coverage.

Ambition by 2030: Improved vaccination coverage, strengthened African pharmaceutical system with regional manufacturing capacities to meet local needs and demand

In focus: manufacturing and access to vaccines, medicines and health technologies

The Team Europe initiative Manufacturing and Access to Vaccines, Medicines and Health Technologies aims to support African partners in strengthening local pharmaceutical systems and manufacturing capacity. At regional level, EU funding is mobilised for regulatory strengthening and the African Medicines Agency (AMA), the WHO technology transfer hub, and the secretariat of the Partnership for African Vaccine Manufacturing, hosted by the Africa Centres for Disease Control and Prevention. At national level, the focus is on increasing production capacity and manufacturing plants and on creating the right ecosystem for investment.

billion

from the EU budget
and Member States

Investing in education and training

Investing in education is an investment in the world's future. With 1.6 billion children out of school at its peak, the COVID-19 pandemic has created an unprecedented learning disruption, which we collectively need to address.

The EU is committed to supporting its African partners in providing modern, quality education and training for all children and youth, training that corresponds to the opportunities available at the labour market, facilitating youth mobility, and fostering innovative solutions to enhance teachers' competences and skills.

Ambition by 2030: Expanded skills development opportunities, to meet emerging needs for Africa's economic and social transformation

In focus: Youth mobility for Africa

The Team Europe Initiative on Youth Mobility for Africa will promote youth exchanges and mobility in Africa and between Africa and Europe. Under its umbrella, it will gather all relevant EU programmes such as Erasmus+ and offer a critical mass of scholarships and internships. By helping to strengthen Africa's higher education space and promote the continent as a study destination for African students, it will support African continental integration.

€970
million

in EU
funding

Supporting sustainable financing for growth

Unlocking additional financing for sustainable transitions will be key to achieve our common ambition.

In focus: Global Gateway Investment Platforms

The EU will fast-track its offering of national and regional investment platforms to African partners. European Union Delegations will function as first points of contact. They will:

- provide an access point to national authorities and the private sector on investment priorities.
- Provide partner countries with the information needed to finance and apply for investment projects
- Ensure coherence with existing Economic and Investment Plans

Grants and loans

The financing of the Global Gateway Africa-Europe Investment Package include the EU and the EU Member States' bilateral aid, and both grants and loans. The Investment Package will also **attract private funding**, targeting investment from both Africa and Europe

The EU will help mobilise investment by sharing risks involved in investing through blended finance and guarantees.

Global Green Bond Initiative

The EU will seek to support partner countries in developing and scaling up their green bond markets, and so help them to attract greater financing from the international capital markets and institutional investors for their sustainable investment.

It will do so by:

- providing Technical Assistance to partners, and
- attracting private investors

Special Drawing Rights

A substantial re-channelling of part of the EU's Special Drawing Rights (SDR) to Africa and other vulnerable countries is envisaged. The SDR will be mostly channelled by EU Member States on a voluntary basis as loans through **two IMF trust funds**: the Poverty Reduction and Growth Trust Fund and the new Resilience and Sustainability Trust Fund.
